

A Different School of Thought

WE BELIEVE THAT EDUCATION IS THE GREATEST ENABLER FOR THE FUTURE.

Nothing gives us greater satisfaction than helping children discover the power of knowledge. A living example of our commitment is the Dayawanti Punj Model School at Sitamarhi, a remote village in Bhadoi, Uttar Pradesh. Housed in a modern three-storey building, equipped with latest teaching aids, the school now has over 1000 students and 32 teachers. Scholarships providing books, stationery and school uniforms ensure that girls continue their education. Facilities like computers, library, laboratories and recreational activities empower the children to live their dreams. We also support organisations that work towards universalisation of primary education.
