

Press Release

Punj Lloyd Group Company wins EPC contract for a centralised water treatment plant in Bihar

- Project to further strengthen Group's experience in the renewable energy sector

New Delhi, January 11, 2011: Punj Lloyd Delta Renewables, a Group Company of the diversified global engineering, procurement and construction (EPC) conglomerate, Punj Lloyd Group, today announced winning an EPC contract for a centralised water treatment plant at Kharagpur, district Munger in Bihar. The project, awarded on a turnkey basis by the Public Health Engineering Department of the Bihar Government, will have a capacity of supplying 6.224 million litres of drinking water per day (MLD) to the fluoride affected village of Khaira and its adjoining areas.

The scope of work includes engineering, procurement, construction, installation and commissioning of a centralised water treatment plant along with piping network in multiple villages to supply treated water. The project will be completed over a period of 24 months.

Speaking on the contract, Dr Tariq Alam, Chief Executive Officer, Punj Lloyd Delta Renewables, said, *"We are proud to win this contract as it will strengthen our footprint in Bihar, where we secured India's largest solar based EPC contract to construct 850 water treatment plants across the state. Water Treatment continues to be a core focus within our renewables portfolio and this project will add to our contribution towards development of Bihar."*

Punj Lloyd Delta Renewables is committed to the development of renewable energy based turnkey integrated development and sustainable solutions. The company provides turnkey solutions across multiple segments which include Utility Scale Grid Connect, Off Grid power generation, Water Treatment & Distribution, Waste to Energy, Green Buildings and Infrastructure. The company has a strong emphasis on solar, offering a range of solutions across all technologies – PhotoVoltaics (PV), Concentrated Solar Power (CSP), Concentrating Photo Voltaics (CPV), Concentrating Heat and Power (CHP).

On the other hand, Punj Lloyd Group has had a rich experience of executing projects for water and wastewater treatment plants with huge capacities, across the globe. The Group has executed large-scale sewerage pipeline networks and water distribution networks, employing conventional, as well as pipe-jacking and tunneling technologies. The Group has to its credit, the construction of Singapore's Changi Water Reclamation Plant which is one of the world's largest wastewater projects.

About Punj Lloyd:

Punj Lloyd (BSE SCRIP ID: PUNJLLOYD, NSE SYMBOL: PUNJLLOYD) The Punj Lloyd Group is a diversified international conglomerate offering EPC services in Energy and Infrastructure along with engineering and manufacturing capabilities in the Defence sector.
